# YOUR HOME LOOKS GREAT! HOW'D YOU DO IT?

You sink time and money into new lighting products that just leave you burnt out and in worse shape than before.

Unhelpful hardware stores and conflicting information only make things feel more hopeless.

The LED Diet is the light at the end of your tunnel. Our professionals work closely with you to determine exactly what's needed to infuse your home with the most attractive lighting and begin a sustainable energy diet.

This is the transformation you've been looking for.

## IT'S THE LIGHTING

You know the look. The one you get when they know something has changed, something's better—but they can't quite tell what it is.

You and your guests will be amazed to see the difference the LED Diet can make in the appearance of your home and the size of your energy bills. And it's almost as simple as flipping a switch.

Your personal LED Dietitian will come to you for a no-obligation home lighting analysis. Your Dietitian will show you a variety of styles and options, from a few bulbs and fixtures in one room to a brilliant whole-home makeover.

You put a lot of effort into making your home a haven. And having the right LED fixtures and bulbs enhances every square foot.

They're cool, consistent, and color-true. They keep your game room chill and your bedroom cozy, because LED lights don't wreak havoc on your home temperatures. They're sturdy and reliable for high-traffic areas. And they trim your electric bills by a healthy amount.

Go green the easy way—guided by an LED Dietitian. In one short visit, your personal lighting expert will show you how to make the most of LED's slimming advantages:

**Eliminate maintenance hassles**  
**Boost your home's beauty**  
**Cut your energy bills**

Want to see how much better your home can look and feel on the LED Diet? Schedule your no-obligation, in-home consultation today **online** by visiting [www.theLEDdiet.com](http://www.theLEDdiet.com).

Or call us at 301-656-2548 to speak with your personal LED Dietitian.
